# INTELLIGENCE CONSULTING SERVICES

ARMA GIDEON is proud to offer our clients a comprehensive suite of Intelligence Consulting Services. With extensive experience in the field, our team of experts is well-equipped to provide the latest, cutting-edge solutions for organizations dealing with the rising threat of terrorism, cyber-attacks, and internal security threats.

Our Intelligence Consulting Services include:

- **Threat Assessment and Risk Management:** We help organizations identify and assess potential threats to their operations, and provide guidance on the implementation of risk management strategies to mitigate those threats.
- **Intelligence Analysis and Collection:** Our team of experts provides intelligence analysis and collection services to support organizations in their decision-making processes. We use a variety of sources and methods to gather and analyze information, and provide actionable intelligence to our clients.
- **Counterintelligence and Insider Threat Detection:** We provide counterintelligence and insider threat detection services to organizations, to help them identify and mitigate potential threats from within their own ranks.
- **Cyber Intelligence and Digital Forensics:** We offer cyber intelligence and digital forensics services to organizations, to help them identify and respond to cyber threats. Our team of experts has extensive experience in the field, and can provide a wide range of services to help organizations protect their networks and systems from cyber attacks.

As a leading provider of defense and homeland security solutions, ARMA GIDEON is well-positioned to take advantage of the extensive experience and expertise of Israeli companies in this field. Our team of experts has the knowledge and experience to provide customized solutions that meet the unique needs of our clients.

We also offer a wide range of training services, including Intelligence Training Services, Intelligence and Counterintelligence Operations Training, Cybersecurity and Information Assurance Training, Big Data Analysis and Information Fusion Training, Intelligence Support to Law Enforcement and First Responders. All of our services are designed to provide organizations with the knowledge and skills they need to protect themselves from current and emerging threats.
